# Services

## **Repair & Maintenance (R & M)**

Maintenance plans to ensure a safe and pleasant living environment. These include all types of civil, plumbing, carpentry, painting, welding, furniture supply and special repairs/maintenance.

### **1. Day to Day Repairs**

This includes service repairs which arises from time to time in the buildings. Such repairs include plumbing works, clearing blocks from drainage pipe/manholes, water supply, restoration of water supply, carpentry etc.

### **2. Annual Repairs**

This maintenance service is carried out to maintain the aesthetics of the buildings as well as to preserve their life. These include services such as painting, cleaning of tiles, scrubbing, tank/sump cleaning etc. These works are planned and executed on an yearly basis or as and when the need arises.

### 3. Preventive Repairs

Everything ages with time. So does your buildings. Our special repairs are undertaken in order to replace or replenish the existing parts of your buildings which deteriorates as it ages. These type of repairs prevent deterioration and help the structure to stay rigid or function without halt.

### 4. Additions & Alterations

Every Individual has his own taste. And the same applies to their apartment/independent house or buildings. Each person will have a different requirement to suit his needs for functional efficiency. This is where we come into picture. Be it addition of a new structure, or alteration of the existing ones, we will plan and execute them accordingly with also suggestions for improvement or necessary changes.

### 5. Special & Customised Repairs

Anything that doesnt come under the above mentioned repairs are usually treated as special repairs. Such repairs are usually the uncommon ones and also which needs customized solutions. We will use our expertise to cater to such repairs in the best possible way.

### 6. Supply and maintenance of furniture and finishing items.

Its always a struggle to find the right point of contact for purchasing quality furnitures or repair/maintenance of your existing valuable furnishing items. With us its never a worry anymore. Let us take all your headaches. We are just a call away.

## Pest Control

Redline is a leading provider of pest control and termite control to homes and businesses. We provide safe, fast and effective pest control in both domestic and commercial environments. Our highly trained Pest Control Technicians are skilled to identify and eradicate all pests. We are industry leaders in competitive pricing, deliver dependable customer satisfaction and fully guarantee our services. Our pest control team addresses the current infestation problem, the overall risk to your property, and sets out a safe application of approved, registered chemicals to treat the infestation. We strongly believe in go green methodology and hence follow environmentally safe pest management practices and methods.

We control timber pests (termites, borers, fungi), nuisance pests (spiders, ants, fleas), hygiene pests (cockroaches, rats, mice, bedbugs, flies) and warehouse pests (moths, beetles, weevils) by offering intelligent pest control solutions around your home, office or commercial premises. Our services have been thoroughly researched to not only address the pest infestation, but also address the migratory habits of the pests to ensure complete protection of your entire property, not just the treated area.

## Key elements of our success story:

**Quality:** We strive to deliver top notch quality in all the services that we offer to our clients. The system is designed around a problem-solving and continual improvement model known as “P, D, C, A”, or Plan, Do, Check, Act. We work directly with location managers to ensure that each location in your company is receiving the right level of service. Just one phone call connects you with our 24/7 telephone help line, operated by knowledgeable, friendly staff who are intimately familiar with your account and able to provide real-time help.

**Safety:** Redline is committed to protecting employees, customers, neighbors and the environment. This is accomplished by implementing the Environmentally Preferable (EP) practices and Safety Management System into all aspects and levels of the business such as Hazard analysis, Employee training, Pre-task planning, Background check, Drug testing, Constant Supervision, Incident reporting, Usage of safety equipments etc,

**Cost Saving:** Through expert analysis, we identify areas where service can be adjusted to save you money. Places with too much or too little service are identified, helping to reduce-unnecessary costs. Additionally, we will see to that our prices are competitive and easy on your pocket.

## Waste Management

We help companies reduce waste, increase recycling, evaluate optimal landfill/disposal methods, implement energy-efficient lighting systems, switch to Environmentally Preferable (EP) cleaning chemicals and more. Our technical team will provide you insights on recyclable/non recyclable wastes as well as wet & dry wastes , thereby helping in waste segregation. This indirectly helps in reducing waste that reaches landfills and reduces pollution to air and water.
